### **For Immediate Release**

### **Usain Bolt Wins on Regupol Track In Berlin**

Lebanon, PA – BSW (Berleburger Schaumstoffwerk GmbH), parent company of Regupol America LLC, recycled rubber manufacturer, installed the new world class performance surface, Regupol Track, in the Berlin Olympic Stadium. On August 15, 2009, more than 2,500 of the world's most accomplished athletes, from over 200 countries, gathered at the stadium to participate in the World Athletics Championships, hosted by the International Association of Athletics Federation (IAAF).

All stadium competitions took place on a high performance track composed of BSW's Regupol sports surfacing material. Jamaican world record holder, Usain Bolt, won the 100-meter race in 9.58 seconds and 200-meter race in just 19.19 seconds on this track. "We're honored that Regupol is installed in the Berlin Olympic Stadium, and knowing that Usain Bolt established a world record in the 100-meter and 200-meter sprint distance on this track is even more spectacular. Once again, quality surfaces make world class athletics better and faster!" said John Aten, Vice President of Sales.

The BSW Regupol athletic track at the Olympic Stadium has obtained the Class I Athletic Facility Certificate by the IAAF, meeting all technical requirements for the relevant competitions.

-more-

Regupol America LLC, American subsidiary of German-based, BSW (Berleburger Schaumstoffwerk GmbH), is a third generation company founded in 1954. Headquartered in Lebanon, PA, the inventor of recycled rubber flooring manufactures multi-purpose surfaces, underlayment and sound absorption which can be used in a variety of applications. With more than 50 years experience, the group employs over 360 employees. The company uses over 115 million pounds of rubber in the manufacturing process. More than 110 million square feet of product is sold each year, with distribution in over 100 countries. Made of 100% post-consumer tire rubber, post-industrial EPDM rubber and additional renewable resources, Regupol America uses the finest raw materials and state of the art manufacturing. The portfolio of products withstands the most intense use, ensuring outstanding performance. For more information about recycled rubber flooring, turf underlayment, and sound absorption, visit [www.regupol.com](http://www.regupol.com).
