For Immediate Release**Regupol America Products Installed in Annapolis Recreational Center**

Lebanon, PA – Manufacturer of recycled rubber flooring, Regupol America LLC, American subsidiary of German-based BSW, recently installed their latest sports and flooring application, Regupol Aktiv and Kombi, in the Annapolis Recreation Center located in Truxton Park, Maryland.

“The multi-purpose recreational center features a wide range of Regupol’s engineered sports products, supporting the eco-green movement,” says John Aten, Vice President of Sales, Regupol America. “This was a great project to be a part of knowing that Regupol is helping to improve community members’ health and athleticism.”

The facility is fully equipped with over 80,000 square feet of recreational space. Regupol Aktiv, applied in the fitness area, covers a total of 3,400 square feet in the Firestorm Red Red color option, part of the 10000 Series. The unique polymer composition provides maximum comfort underfoot, durability, and slip resistance. Regupol Kombi, utilized as an indoor jogging track, encompasses 15,000 square feet, shown in Regupol’s standard color, Brick Red. The recycled rubber surface is a pre-fabricated, dual durometer surface with excellent shock absorption — reducing potential for injury to athletes.

Annapolis area members attended the ceremonial ribbon cutting of the newly constructed Truxton Park Recreation Center on October 30th. The facility will officially open its doors in December 2009, and program offerings will begin in January 2010.

Regupol America LLC, American subsidiary of German-based, BSW (Berleburger Schaumstoffwerk GmbH), is a third generation company founded in 1954. Headquartered in Lebanon, PA, the inventor of recycled rubber flooring manufactures multi-purpose surfaces, running track surfaces, synthetic turf shock pads and impact sound absorption underlayments. With more than 50 years experience, the group employs over 360 employees. The company uses over 115 million pounds of rubber in the manufacturing process. More than 110 million square feet of product is sold each year, with distribution in over 100 countries. Made of 100% post-consumer tire rubber, post-industrial EPDM rubber and additional renewable resources, Regupol America uses the finest raw materials and state of the art manufacturing. The portfolio of products withstands the most intense use, ensuring outstanding performance. For more information about recycled rubber flooring, turf underlayment, and sound absorption, visit www.regupol.com.
