For Immediate Release

Iron Bridge Benefit Run Helped Fund Regupol Track

Lebanon, PA – Regupol America LLC, inventor of recycled rubber products serving multi-purpose sports, fitness and commercial specialty flooring, recently manufactured the latest Regupol Base Track System at Lancaster Mennonite High School located in Lancaster, Pennsylvania. The track was sold and installed by local sports contractor, Abacus Sports Installations.

Renovations at Lancaster’s campus included a new field facility consisting of the Regupol Base Track System, soccer field, hockey stadium, junior varsity baseball field, and a widening of the rear entrance to allow for two-way traffic. The estimated cost for the project was over \$1 million.

The Regupol Base Track System is 11mm thick, in black. The 8 lane track covers a total of 53,000 square feet surrounding the school’s field. In order to offset the costs of the track, the most recent benefit fundraiser, Iron Bridge Benefit Run, took place Saturday, November 21, 2009 in Lancaster, PA. Participants ran a 5K race where all proceeds benefited the Lancaster Mennonite School’s Regupol track completion.

-more-

“It’s always a great opportunity to see the community coming together to support school improvements,” said George Soukas, President, Regupol America. “As an avid runner, I know students will enjoy the new Regupol Base Track System.

Regupol America LLC, American subsidiary of German-based, BSW (Berleburger Schaumstoffwerk GmbH), is a third generation company founded in 1954. Headquartered in Lebanon, PA, the inventor of recycled rubber flooring manufactures multi-purpose surfaces, running track surfaces, synthetic turf shock pads and impact sound absorption underlayments. With more than 50 years experience, the group employs over 360 employees. The company uses over 115 million pounds of rubber in the manufacturing process. More than 110 million square feet of product is sold each year, with distribution in over 100 countries. Made of 100% post-consumer tire rubber, post-industrial EPDM rubber and additional renewable resources, Regupol America uses the finest raw materials and state of the art manufacturing. The portfolio of products withstands the most intense use, ensuring outstanding performance. For more information about recycled rubber flooring, turf underlayment, and sound absorption, visit www.regupol.com.
