For Immediate Release**Regupol America Acquires Additional Land**

Lebanon, PA –The German engineer of sustainable surfacing material, Regupol America LLC, is proud to announce the expansion of property surrounding its Lebanon, Pennsylvania-based establishment in the Lebanon Valley Industrial Park. Regupol America secured all agreements in mid-fall for an additional 10 acres of land, allowing for a total of 25 acres encompassing the manufacturing facility.

“The purchase was fueled by the need to expand the manufacturing facility in the near future,” says George Soukas, President, Regupol America. “In doing so, the adjacent property’s location provides us with greater manufacturing efficiencies in utilizing existing and new equipment, personnel, supplies and storage.”

Regupol America continues to receive strong support from the Lebanon Valley Economic Development Corporation since their initial purchase of the 15 acres of property back in April 2008. The company is currently in the process of developing plans and confirming dates to when production will begin for the additional manufacturing space, with hopes to break ground in the first half of 2010.

-more-

Regupol America LLC, American subsidiary of German-based, BSW (Berleburger Schaumstoffwerk GmbH), is a third generation company founded in 1954. Headquartered in Lebanon, PA, the inventor of recycled rubber flooring manufactures multi-purpose surfaces, running track surfaces, synthetic turf shock pads and impact sound absorption underlayments. With more than 50 years experience, the group employs over 360 employees. The company uses over 115 million pounds of rubber in the manufacturing process. More than 110 million square feet of product is sold each year, with distribution in over 100 countries. Made of 100% post-consumer tire rubber, post-industrial EPDM rubber and additional renewable resources, Regupol America uses the finest raw materials and state of the art manufacturing. The portfolio of products withstands the most intense use, ensuring outstanding performance. For more information about recycled rubber flooring, turf underlayment, and sound absorption, visit www.regupol.com.
